Design Thinking − an insight

We are all in awe of genius innovations. But how does anyone come up with them? One thing is sure: Inventions are only seldom produced by lone-wolf geniuses in a quiet room somewhere. Modern inventors work in a team − and design thinking is their tool. This method will help you uncover your full potential for innovations!

Duration: **approx. 0.5 hours**

Language:

Learning objectives

✓ You will discover the design thinking process.
