Scrum

"Too late, too expensive, the wrong features" – does this sound familiar? Then you will love Scrum: Short cycles, fast results, and high levels of involvement from all decision-makers are just three of the reasons why Scrum is becoming increasingly popular. Familiarize yourself with the ultimate agile method in just 20 minutes.

Group of participants:
Project team members, project managers and all those who require an introduction to the idea behind Scrum.

Duration: **approx. 0,5 hours**

Language:

Learning objectives

✓ You learn whether Scrum is suitable for your projects.

✓ You know how a sprint runs in detail.

✓ You learn which Scrum roles there are.

✓ You can better evaluate whether Scrum is the right method for your team.

✓ You use helpful Scrum elements directly in your projects.
